Thank you for getting in touch and a huge congratulations on your engagement!!!

I'm really touched your considering me as the photographer for your big day. I'd love to hear more about you both and find out what special things you've planned to make your day unique.

Over the next few pages, there's a bit more information about the packages I offer. If you think I'd be a good fit as your photographer, I'd love to arrange to sit down for a coffee and get to know you better. If you're based a little further afield we can always schedule to catch up over the phone or via skype.

Most importantly though, I totally get that no two weddings are the same. If you are after something a little bit different, please don't be afraid to ask. I'm more than happy to work out a bespoke package tailored exactly to your requirements.

WEDDING PACKAGES

All packages include the following as standard

For a full day wedding you can expect to receive approximately 350 images. However this isn't a set or specific number. If there are good shots, you can have them. I'm not going to bombard you with an excessive number of images instead it will be edited to the best selection.

All images in the final edit are presented as high resolution files, with full rights for you to print and share as you wish. NO WATERMARKS!

Each image is presented in three signature styles: vibrant colour, romantic black and white, vintage reflections.

A low resolution edit ready for sharing on social media.

An online gallery for you to share with friends and family. Online for a minimum guaranteed 12 months, probably a lot longer.

A mobile application (app) for your phone (compatible with android and IOS) featuring a gallery of 40 images.

All presented on a high quality USB stick, plus several additional copies supplied as back-ups on DVD.

F.A.Q

Do you travel?

Yes, I love any excuse to travel. All the prices shown here are for weddings between Yamba (to the South) and Surfers Paradise (to the North). For weddings outside of this area, travel will be an extra. Depending how far I may also require an allowance for an overnight stay.

How many photographers are included?

The prices shown are for me. I don't send anyone else in my place, no associate photographers etc. I'm used to working alone and find more often than not, I don't need a second shooter. Occasionally I do get couple's who request a second photographer, and I have a few experienced photographers whose services I can call upon if required.

Do you offer a mid week/off-peak discount?

Yes. For weddings not taking place on a Saturday, I offer 15% off the listed prices.

Do you shoot film?

I love traditional analog photography. I actually started out shooting film back before it was trendy. I'm happy to discuss shooting some parts of your day on film, but generally and for the prices shown, all weddings are 100% digital.

Want something different?

No worries. I'm more than happy to create a wedding package, just for you. Shoot me an email or give me a call and we can start building a package around you.

BOOKING & PAYMENT

The first step is for me to send over a formal quote. This details exactly what I will be supplying and how much it will cost.

For me to give you a quote, I'll need the following.
Wedding Date, location, amount of coverage required, any additional features or customizations.

Once you've received your quote and want to go ahead, you need to inform me you want to book. I will then supply you with my bank details and you can make a direct bank transfer for the deposit. The deposit is normally \$495. I require the deposit to be paid in full in order to secure your wedding date.

Once you have paid your deposit and it has cleared, you will receive a receipt for your payment.

The remaining balance is then due no later than 14 days prior to the date of the wedding. It is entirely up to you how you wish to pay the balance. I'm more than happy for you to make several installments or settle the amount in full at any time between booking and 14 days before the date of the wedding.
